PROFESSIONAL SUMMARY

Cybersecurity professional currently working as a SOC Analyst Trainee, with hands-on experience in SIEM-based alert triage, threat hunting, and Vulnerability Assessment & Penetration Testing (VAPT). Completed four cybersecurity internships covering network vulnerability assessment, web application security testing (OWASP Top 10), and network traffic analysis. Built security tools in Python, including a malware analysis sandbox, a web vulnerability scanner for SQLi/XSS, and a DDoS detection system. Completed TryHackMe Jr Penetration Tester, Offensive Pentesting, and DevSecOps learning paths.

WORK EXPERIENCE

SOC Analyst Trainee

Innspark | Delhi | June 2026 – Present

- Gained hands-on experience with Innspark's in-house SIEM platform, **BDSAP SIEM**, covering log generation pipelines, correlation rules, and alert triage workflows.
- Performed **threat hunting** by analyzing security events, identifying IOCs, and investigating suspicious patterns across network and endpoint telemetry.
- Conducted **VAPT (Vulnerability Assessment & Penetration Testing)** exercises, identifying and exploiting vulnerabilities in controlled environments.

Penetration Tester Intern

Deltaware Solutions | June 2025 – July 2025 | [Certificate](#)

- Conducted network-level vulnerability assessments using Nessus, identifying critical misconfigurations and unpatched services.
- Developed a multi-threaded Python-based password cracker to demonstrate risk exposure in brute-force scenarios.

Security Tester Intern

Bornsec | Remote | April 2025 – June 2025 | [Certificate](#)

- Performed web application security testing with Burp Suite (manual) and Nessus (automated), assessing applications against the OWASP Top 10.
- Wrote technical vulnerability reports with risk descriptions and remediation recommendations.

Networking and Cybersecurity Intern

Megamind IT Services | Remote | March 2025 – August 2025 | [Certificate](#)

- Analyzed network traffic with Wireshark to detect intrusion attempts and protocol anomalies.
- Designed social engineering and phishing awareness simulations to improve employee security awareness.

PROJECTS

Malware Analysis Sandbox — [Repository](#)

A secure virtualized environment utilizing custom Python scripts for behavior profiling and indicator of compromise (IOC) extraction from suspicious binaries.

Tech Stack: Static/Dynamic Analysis, Python, Cuckoo

Vulnerability Automation Suite — [Repository](#)

Python-based web vulnerability scanner using deep-crawl detection for SQL Injection (SQLi) and Cross-Site Scripting (XSS), with integrated logic to bypass common WAF filters.

Tech Stack: Python, Security Automation, OWASP Top 10, SQLi, XSS, WAF Bypass

Shield Guardian (IPS/IDS) — [Repository](#)

Real-time DDoS detection system using rate-limiting and behavioral anomaly detection to block volumetric attacks at the firewall level.

Tech Stack: Intrusion Prevention System (IPS), Intrusion Detection System (IDS), Networking, Firewall Automation

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Business Systems (CSBS)

Ganpat University | Graduated: 2025 | CGPA: 6.5

CERTIFICATIONS

Jr Penetration Tester Learning Path — TryHackMe — April 2026 | [Certificate](#)

DevSecOps Learning Path — TryHackMe — March 2026 | [Certificate](#)

TryHackMe Offensive Pentesting — March 2026 | [Certificate](#)

Cisco Ethical Hacker — September 2024 | [Certificate](#)

EC-Council SQL Injection — August 2024 | [Certificate](#)

Ethical Hacking and Cyber Security Complete Bundle — TechHacker — May 2023 | [Certificate](#)

TECHNICAL SKILLS

Security Tools: BDSAP SIEM, Nmap, Burp Suite, Nessus, Wireshark, Metasploit, Cuckoo Sandbox

SOC & Blue Team: SIEM, Alert Triage, Threat Hunting, Log Analysis, IOC Analysis, Security Operations (SOC), Malware Analysis, IDS/IPS

Offensive Security: Vulnerability Assessment, Penetration Testing (VAPT), Web Application Security, OWASP Top 10, SQL Injection, Cross-Site Scripting (XSS), Password Attacks, Social Engineering, Network Security

DevSecOps: Docker, Kubernetes, CI/CD Pipeline Security, SAST/DAST, Secure SDLC (SSDLC), Infrastructure as Code (IaC), Container Security

Programming: Python, Bash, Linux Administration

Soft Skills: Problem Solving, Team Collaboration, Adaptability, Communication, Time Management

LANGUAGES

- **English** — Fluent
- **Hindi** — Fluent
